

# Crop Diversity was created by Farmers and Gardeners

All domesticated  
species were bred  
by farmers, not  
scientists.

Seed Saving is  
Breeding.

# Maintaining & Changing a Variety

# Creating a new Variety

Accidental crossing – the “impossible” squash

What species are these plants?  
*Brassica napus* x [*B. rapa* x *B. oleracea*]

# Overwintered Kale

# Color genetics in Sheep
